VANCOUVER HERITAGE INVENTORY, AUGUST 1986

Adopted by City Council September 23, 1986
Amended March 8 & September 27, 1988

CITY OF VANCOUVER PLANNING DEPARTMENT NOVEMBER 1988

VANCOUVER HERITAGE INVENTORY

LISTING OF RESOURCES

In September 1986, Vancouver City Council adopted the Vancouver Heritage Inventory. This Inventory is a listing of buildings, streetscapes, landscape resources (parks and landscapes, trees, monuments, public works) and archaeological sites which have architectural or historical heritage value. The City has adopted a number of regulations, policies and guidelines which affect buildings or sites listed on this Inventory. Property owners and other developers should consult these regulations, policies and guidelines prior to proposing changes to these properties.

HERITAGE BUILDINGS

The list of heritage buildings is arranged by address, beginning with numbered avenues, followed by streets in alphabetical order. If a building name is known, it is indicated in the next column.

Buildings of primary heritage significance are indicated by an "A" under the column headed "Evaluation Group". Buildings of individual heritage importance are indicated by a "B". Buildings of heritage character are indicated by a "C".

An "M" or "P" following the building Evaluation, indicates buildings or sites that are protected by a legal heritage designation by the City of Vancouver ("M") or the Province of British Columbia ("P"). Not all provincially designated sites were evaluated as part of the Vancouver Heritage Inventory and some therefore may not have an evaluation.

HERITAGE STREETSCAPES

The list of heritage streetscapes is arranged by address, beginning with the numbered avenues, followed by streets in alphabetical order. The second column gives the location of each streetscape a two letter code for the local area that corresponds to the local area map provided. The final column indicates the specifics of the streetscape location on the block.

The streetscapes include blockfaces or groups of buildings which have special heritage merit due to the consistent heritage character of the structures and their setting. While not all the buildings are individually listed on the Vancouver Heritage Inventory, they contribute significantly to the heritage character of the streetscape or precinct. Streetscapes already in conservation areas have not been included in the list.

LANDSCAPE RESOURCES

The list of landscape resources is arranged in the order of parks and landscapes, trees, monuments, and public works.

All landscape resources are arranged by location. Avenues are listed before streets and locations with proper names. The second column gives a two letter code for the local area that corresponds to its location on the local area map. The final column notes the name or other specific information about the resource.

ARCHAEOLOGICAL SITES

Archaelogical sites are identified by a Site Number which is a classification system used by archaeologists throughout Canada. The second column notes a two letter code for the local area that corresponds to the location of the archaeological site on the local area map. The final column indicates the type of archaeological site.

In order to protect the archaeological sites, their specific location is not indicated in this Inventory. However, any development affecting these sites is noted by the City's Permits and Licenses Department during the development/building permit application process, at which time the Provincial Heritage Conservation Branch and the applicant are notified.

LOCAL AREAS

The map below shows the boundaries and corresponding abbreviations of the local areas referred to in the Inventory.
